THE VALUE OF EXPERTISE

Immunogenicity

Biomarker Laboratory Services

PBI provides biomarker laboratory services designed to support the needs of biotherapeutic development. These services include developing, validating and performing methods for immunogenicity testing and novel biomarker assays, including technology transfers.

Pacific Biomarkers, Inc. offers:

- Novel Biomarker Assay Development
- Immunogenicity Testing Services
- Cell Based Assays
- Multiplexing
- Pharmacokinetic (PK) Assays
- Technical Collaboration
- Protocol Design

Since 1989, PBI has partnered with the Pharmaceutical, Biotech, and Diagnostic Manufacturing Industries to provide biomarker laboratory services.

Immunogenicity Testing

- Anti-Drug-Antibodies
- Cell Based Assays

Clinical Biomarker Services

- Novel Biomarker Assay Development
- Technology Transfer
- Commercial Assay Optimization
- Cell Based Assays

Analytical Platforms

- ELISA
- Gradient Gel Electrophoresis (GGE)
- HPLC/UHPLC
- LC – MS/MS
- Luminex™
- Meso Scale Discovery (MSD®)
- RIA
- Roche Elecsys®
- Roche Modular P®
- Siemens Immulite®
- Ultracentrifugation
- In-Cell Western

Regulatory

- CAP
- CDC – NHLBI LSP
- CLIA
- GLP
- NGSP
- N.Y. State
